DEPARTMENT NEWS.

FLORIDA .-General Order 7, just issued, was "set up' by Department Commander Day. The Gate City Chronicle, of Sanford, which does the printing for this Department, was behind with it work, when the Commander brought in his General Order, which had to be printed immediately. What was to be done was then the question. There was no other alternative, so Commander Day pulled off his coat and, being an old "typo" by profession, went to work and "set it up," and though he had not handled the types for 12 years, he showed that he was "in it" equally with the best compositors. Many a brother has been asked to fill that position and declined, and by doing so has made comes into the hands of any brother who have been asked to fill that position, don't refuse. A good First Sergeant is to be envied. Now is the time that new men are taking hold of the machinery of our Order, and let them receive the support of all brothers.

Nothing more pleasant and encouraging to a new Captain then a good hearty attendance. Many Captains wondered why they retake steps at once to have an auxiliary, saying | Chief's General Order. It was because of a specceived only one copy of the Commander-inial order from Headquarters to that effect. Are any of the brothers thinking about those same General Orders, as regards the reference made to uniforms? There is not a Camp in this Division that is uniformed according to the last General Order. And the dark-blue trousers are not worn there at all. Some of the Captains or Lieutenauts will murmur if they have to spend much of a sum in procuring

Commander Cable, in last General Orders, says: "The year 1894 is rapidly drawing to a close, and we have every reason to believe that it has been a prosperous one in the history of the Ohio Division. It is safe to hazard the assertion that at no time in our history as a Division has the close of the year witnessed the affairs of the Division in such a splendid condition as these under which we enter upon the year 1895. The revival of interest in the work of our Order is unanimous, and comes from all sections of the State. The manner in which the staff of the Commander is taking hold of their work, and urging the organization of new Camps, and the reclaiming of charters of disbanded Camps, is highly gratifying, and indorses the wisdom of his selections. Keep on in the grand work, brothers, and at mander will be able to report a hundredfold forwarded promptly, in order to make as large a showing as possible at the close of the year.'
